EXPIRATION OF SAND AND GRAVEL LEASE

ML 33809 Sand and Gravel Lease ML 33809 was approved by the Board of State Lands for a period of six months, during which time the lessee was to remove 37,000 cubic yards of material. The Lessee has now completed their operations on this lease. The land has been reclaimed; therefore, upon recommendation of Mr. Prince, the Director accepted the termination of this lease as of June 30, 1977.

CORRECTION OF DIRECTOR'S MINUTES OF SEPTEMBER 5, 1978

The minutes of September 5, 1978, showed that ML 25712 expired as of August 31, 1978. This is in error because this lease had been committed to the Clay Basin Unit on October 10, 1969, and this unit is still in good standing; therefore Mr. Prince recommended that the minutes be corrected to indicate that this lease did not expire as was shown on the minutes of September 5, 1978. The Director approved this recommendation and the lease to be reinstated.

RIGHT OF WAY FOR BRINE CANAL -- Mineral Salt Lease

ML 29864 Mr. William J. Coleman, lessee under Mineral Salt Lease ML 29864, has requested that a right of way covering an existing canal be added to his lease. This right of way is described as follows

Beginning at the railroad bridge on the meander line of the Great Salt Lake in Lot 5, Section 21, Township 6 North, Range 9 West, SLM, thence North 45° East, to a point of the quarter-quarter Section line running East-West in Section 21; thence East to and beyond the shoreline to allow for the construction of canals, access roads, and pump stations, and any other facilities necessary to remove water from the Great Salt Lake.

The canal on this right of way was constructed under a previous mineral salt lease issued to Intermountain Chemical Corporation, which was cancelled several years ago.

In addition to its lands on the bed of the Great Salt Lake, ML 29864, also, covers two school sections, which are to be used in conjunction with certain Federal lands in attempting to establish mineral salt production in the Lakeside area. This canal serves as the means of transporting brines in the Great Salt Lake to the ponding area.

Upon recommendation of Mr. Prince, the Director approved the right of way to become a part of ML 29864 at the same fee as is charged on the lease.
